

Wake Up

Ten Tonnes

I think I've seen you in the background
Of every photograph that I've found
Maybe my mind's playin' tricks on me
But it's only your face I see

It's not like me to try any harder
Than I absolutely have to
'Cause somethin' you do pulls me like a magnet
I can't escape, no, I can't escape it

Wake up, wake up, baby
I'm right here with you, need me
Nothin' changes, not for the better
I would wait for, wait forever
For you, you, you, you

I've been watchin' the wheels go 'round
Pass my window and into town
Hopin' soon that you'll pull up (Pull up)
You never do but that's just my luck

It's not like me to try any harder
Than I absolutely have to
'Cause somethin' you do pulls me like a magnet
I can't escape, no, I can't escape it

Wake up, wake up, baby
I'm right here with you, need me
Nothin' changes, not for the better
I would wait for, wait forever
For you, you, you, you

Somethin' you do, I can't ignore
You know baby, ah, you know I need more
Every mornin', I wait by the phone
Hopin' you'd call but I'm always alone
Oh, yeah

Wake up, wake up, baby
I'm right here with you, need me
Nothin' changes, not for the better
I would wait for, wait forever
For you, you, you, you
Oh-oh-oh-oh
Oh-oh-oh-oh
Oh-oh-oh-oh
Oh-oh-oh-oh
