

Birthday

Ten

Oh, no, yeah
Oh, no, yeah

Baby, dance, dance, dance
Wrap me up with your devotion
It's a bad romance
Got my body rockin' in slow motion
But I can't cope
Walkin' on a tightrope
Hangin' on the tension
Let me down, down, down with you
Let me give you my attention (Oh-oh-oh)

Got no self-control
'Cause I want it all
So, I'ma make you feel
Like tonight's your birthday

Every second, every minute
Make me wanna celebrate it
Everythin' about you perfect
Just the way your mama made it
You're the best, you're my first, first place
Sugar sweet in a million ways
Baby, we don't need no reason
Baby, we don't need to wait
Let's make tonight your birthday

I put my hands, hands, hands
When I know you wanna hold them
I wanna be in so deep, baby
Floatin' like we're deep inside an ocean
No, I don't care
As long as I got you there
Baby, let's keep fallin'
I'm talkin' with my hands
Oh, baby, here is my confession
Let's make tonight your birthday

Every second, every minute
Make me wanna celebrate it (Just wanna celebrate for your love)
Everythin' about you perfect
Just the way your mama made it
You're the best, you're my first, first place
Sugar sweet in a million ways
Baby, we don't need no reason
Baby, we don't need to wait
Let's make tonight your birthday

I've been blinded by you
Baby, you got full attention, yeah
So, let us take it slow
I never say this, but girl
You deserve it best
So, let it go
Do all you want for tonight, ooh-oh, yeah

Like tonight's your birthday

Ooh-oh

Like tonight's your birthday

Every second, every minute

Make me wanna celebrate it (Celebrate it, celebrate it, baby)

Everythin' about you perfect (Hey)

Just the way your mama made it (Ooh-oooh, ooh)

You're the best, you're my first, first place (First place, first place)

Sugar sweet in a million ways (Save me)

Baby, we don't need no reason

Baby, we don't need to wait

Let's make tonight your birthday

Baby, we don't need no reason

Baby, we don't need to wait

Let's make tonight your birthday
