

Die For Me

Ten

Godless, damned, I'm a spectre
Crossing this stark, baron land
Lawless man and protector
Facing the dark 'best I can'

On the black horizon
Shadows of death make a stand
So I exorcise them
Ashes to dust on the sand

Lightning, rain and thunder
Cut me to the bone, yeah
Life condemned to wander
This battle zone
This life alone

I'll make you die for me
In this world you're not so tough
I have come to lead you
Don't you lie to me
Demon girl you're not so tough
I will not deceive you

If you try for me, babe
You can fly for me, baby
We could go to hell tonight
But if you die for me, babe
Sacrifice for me, baby
You can taste this heaven of mine

'Dead man down' when she left me
She crushed my world in her hands
Darkness came to collect me
And I made a deal with 'The Man'

Looking back I wondered
Prayed for a gun in her hands
That this pain I'm under
Might dissipate on command

Lightning, rain and thunder
Cut me to the bone
Life condemned to wander
This battle zone
This life alone

I'll make you die for me
In this world you're not so tough
I have come to lead you
Don't you lie to me
Demon girl you're not so tough
I will not deceive you

If you try for me, babe
You can fly for me, baby
We could go to hell tonight
But if you die for me, babe

Sacrifice for me, baby
You can taste this heaven of mine

I'll make you die for me
In this world you're not so tough
I have come to lead you
Don't you lie to me
Demon girl you're not so tough
I will not deceive you

If you try for me, babe
You can fly for me, baby
We could go to hell tonight
But if you die for me, babe
Sacrifice for me, baby
You can taste this heaven of mine

I'll make you die for me
In this world you're not so tough
I have come to lead you
Don't you lie to me
Demon girl you're not so tough
I will not deceive you

If you try for me, babe
You can fly for me, baby
We could go to hell tonight
But if you die for me, babe
Sacrifice for me, baby
You can taste this heaven of mine

Yeah, yeah
