

# Hurricane

Ten

Don't turn away  
Why won't you stay  
Words from the heart  
Falling cold on my skin  
Life deals a fate  
That's so hard to take  
This killer strikes from within

I'm like a wraith now  
Who cries for the others crawling  
I drift through life remembering  
This bitter taste lasts  
Far beyond wise words  
And brothers' warnings  
There's no one left here to blame

I'm fading like the winter sun  
Lost in the Hurricane  
This shadow song has been sung to long  
I've traded all my principles  
I'll never love again  
I don't belong here now  
With thieves and lovers

Rhymes on the page  
Ghosts on the stave  
Between the lines  
Only the spectres engage  
Time slips away  
Ticks louder each day  
We live and die on a whim

Too much to take now  
One flies whilst another's falling  
Tendrils of life condemn the day  
Nature's embrace now  
Thunder and lightning  
A mother's calling  
There are no words left to say

I'm fading like the winter sun  
Lost in the Hurricane  
This shadow song has been sung to long  
I've traded all my principles  
I'll never love again  
I don't belong here now

I'm fading like the winter sun  
Lost in the Hurricane  
This shadow song has been sung to long  
I've traded all my principles

I'll never love again  
I don't belong here now

I'm fading like the winter sun  
Lost in the Hurricane  
This shadow song has been sung too long  
I've traded all my principles  
I'll never love again  
I don't belong here now

I don't belong here now, yeah

I don't belong here now  
With thieves and lovers
