

Immaculate Friends

Ten

Timeless scenes under neon
Nights where dreams never end
And days like these blood
The young guns blazing

Feel that beat, unforgiving
Tireless heat, die to live
We're raised on streets
Where the thunder rages

Hold back the night
Keep the darkness waiting
While the home fire still rages
This love remains

Setting the world alight
Put on a show again
Tear this place apart tonight
My immaculate friends

Ready the girls and guys
Re-write a story's end
Bury broken hearts tonight
From disastrous blends
To immaculate friends

You and me are the final
Fantasy, unrelenting
Wild and free
You and I don't fake it

Climb with me, we ascend in
Ecstasy, if you give your
Heart to me
Baby I won't break it

Hold back the night
Keep the darkness waiting
For when all else has faded
This love remains

Setting the world alight
Put on a show again
Tear this place apart tonight
My immaculate friends

Ready the girls and guys
Re-write a story's end

Bury broken hearts tonight
From disastrous blends
To immaculate friends

Hold back the night
Keep the darkness waiting
While the home fire still rages
This love remains

(World, world, world, show again)
Tear this place apart tonight
My immaculate friends

(Girl, girl, girl, story's end)
Bury broken hearts tonight
From disastrous blends

Setting the world alight
Put on a show again
Tear this place apart tonight
My immaculate friends

Ready the girls and guys
Re-write a story's end
Bury broken hearts tonight
From disastrous blends
To immaculate friends
