

Lie With You

Ten

Oh, my heart lies when I lie with you
Got stars in my eyes, light the sky for you
I know we won't last and you know it too
So baby while it lasts, let me lie with you, yeah

Met you midnight in my bedroom
We were dancin' under the stars, so lost in the night
I knew better than to need you
Swear I didn't mean to, but I can't say goodbye
I'll wait until you

Leave me lonely
Gonna leave me lonely
If you love me
Don't say you love me (Ah-ah-ah, ah)
Need me, baby
Do you need me, baby when you hold me?
I know it's only just for now

Oh, my heart lies when I lie with you
Got stars in my eyes, light the sky for you
I know we won't last and you know it too
So baby while it lasts, let me lie with you, yeah
Oh, my heart lies when I lie with you
It tears me apart 'cause we hide the truth
Playin' our cards and you know we'll lose
So baby while it lasts, let me lie with you, yeah, yeah

Ooh-ooh, ooh-ooh
Lie with you, ooh
Baby, while it lasts, let me lie with you, yeah, yeah

You'll be perfect for somebody else
Let's pretend it's me for now, don't make a sound
Just kiss me like it's almost endin'
'Cause it is, but we'll be around, just be with me now
Before you go and

Leave me lonely
Gonna leave me lonely
If you love me
Don't say you love me

Oh, my heart lies when I lie with you
Got stars in my eyes, light the sky for you
I know we won't last and you know it too
So baby while it lasts, let me lie with you, yeah
Oh, my heart lies when I lie with you
It tears me apart 'cause we hide the truth
Playin' our cards and you know we'll lose
So baby while it lasts, let me lie with you, yeah, yeah

Ooh-ooh, ooh-ooh
Lie with you, ooh
Baby, while it lasts, let me lie with you, yeah, yeah
Ooh-ooh, ooh-ooh
Lie with you, ooh

Baby, while it lasts, let me lie with you, yeah, yeah
