

## We Can Be As One

Ten

Pick up the pieces of my heart  
On every empty stage  
I hide a shard  
A thousand reasons  
Why I find it hard  
To say goodbye each time  
We have to part

Tonight you took my breath away  
And now you leave me lost  
For words to say  
So let's pretend  
That I will find a way  
To let my blessed  
And humbled heart convey

I hate to leave you here like this  
The show is over  
And the light has gone  
I'd love to stay  
And sing another song  
Bid you adieu with one last kiss

So much about you I will miss  
But I'm right beside you now  
As life moves on  
I'll wait forever  
For the time to come  
When on another night like this  
We can be as one

So much about you I will miss  
But I'm right beside you now  
As life moves on  
I'll wait forever  
For the time to come  
When on another night like this  
We can be as one

When on another night like this  
We can be as one
