Choky

ten56.

Take it from me (bitch)
You're never gonna change
Building bars inside your skull and now you're living in a cage (shit)
This is exactly why you never fucking learn a thing, same old story going me
ssing up your life again!

Stupid child
Blame it on
Any one else
Psychopath!

In the corner do not feel welcome (why?)
Why am I like this? (Why the fuck?)
This is pure agony (I fucking hate this)
And where is, the nearest exit? (Get me)
Get me, the fuck out of here
I just can't take another second of this torture, self inflicted I think I m
ight be addicted to this pain
Will it ever go away?
Will it ever go away?
Will it ever go away?

Shame, disgrace
Shame, disgrace

I despise you
Evil fuck
Take me (take me)

High, just to plunge me back into darkness
Why do I feel like I've been here before no control anymore
Lonely boy, are you happy with yourself now?
How does it feel now you got everything that you asked for?

Maybe they're right?
Maybe I'm crazy?
What if, I'm sat on the edge of fucking insanity?
Maybe I've lost it?
Maybe I'm coming undone?
(Maybe I'm sick)
Maybe I'm fucked!

Why would you take it from me? (fuck)
I've lost my fucking mind
I've done made this jail my home and you will never get inside (inside)
Fuck you, I don't need no more advice cause you know I'm already way too far
gone
And one day

I just won't wake up!

Sick of feeling empty
Same mistakes have got me feeling
I might never be the same
Unless I do something about it
Just that no-one hears these voices
Cause they're all up in my head and

They ain't they ain't talking to nobody but
Me!
