

## Exit Bag

ten56.

I won't stop until I'm bleeding  
Look what you turn me into  
Face down in a dirty bathroom  
I won't see the sun  
Dopamine fiend, son  
Here we go again into the same fucking prison!

Again, I let you win, soul eating bastard

Creep back in when the back is turned  
Filling my mouth with a thousand words  
Nothing to say I got nothing to learn  
Nothing but wasted days I'm stuck with losing my mind  
I can't control you so I'd rather sink this knife deep inside

And fucking gut you  
Dirty, filthy bitch  
A thousand sniffs and you still smell like shit

Straight back  
Into this hole again  
You suck me lifeless  
Selfish scumbag

I wish you nothing but pain  
Shit stained slut dressed in white  
Get the fuck out my life  
Don't you crawl back I want you

Dead inside just like my mind when you leave me  
Lonely death nothing left, nothing left

Can't even look in the mirror without hating the sight  
Way back before I knew you everything was alright  
Now look at me  
And these pills that I eat  
And this life that I have  
So disappointing  
I'm never coming back  
And I'm reaching for the exit bag!

I, reject myself  
I've fallen for the joke again  
Look at me, pathetic mess  
Misery!
