

## Good Morning

ten56.

Blood running through my veins like acid  
Burning this hole that I use to hide my thoughts in  
The rain falls, I continue mindless digging  
Won't stop till I have six whole feet to lie in

God help me, god help me

The fog has fallen, it's just me inside my head (Me inside my head)

My skin is crawling from these insects in my bed (My bed)  
They crawl under my skin, and up into my spine  
To lay their eggs that spawn regurgitating thoughts into my mind

Intestines are rotten, my liver forgotten, my head is an earthquake

Palpitations have started, my soul has departed, my joints and my bones ache

Hallucinations are starting to take a grip  
The walls are closing in, the walls are closing in

Oh god

Please help me, please help me

Get me out, get me out, get me the fuck out of here

I breathe onto the mirror I can't see my breath  
The lights are on but there's no-one home, there's no-one fucking left

The sweat stings my eyes, I beg to wake up but the blood on the ceiling, this god awful feeling, the only thing I've got

Blood running through my veins like acid  
Burning this hole that I use to hide my thoughts in  
The rain falls, I continue mindless digging  
Won't stop till I have six whole feet to lie in

Buried alive

I feel dead inside  
This nightmare is slowly becoming my life  
The only thing that I'll be leaving behind  
Will be the key to the gates of my mind  
Welcome to hell

So here we go again  
Digging in this ditch to find the same old excuses  
Apologies are nice, but a hundred of them useless  
I'm only here to break some hearts and have some fun

There's not a problem that can't be solved with a fully loaded  
gun so

Bang, bang, bang, bang
