

I'll fail myself just one more time  
Fuck!

I'll fail myself just one more time  
So I crush another pill and sail to heaven  
I don't feel like I wanna feel alive again  
Just numb the pain and forget I'm not dead

Eyes closed, never asleep  
Itching my skin can't believe this is me  
Wasting away like I've wasted my time  
Always pushing away those who value my life

(Hey)  
I just don't feel right sometimes  
I don't feel safe so I choose to spend another night on my own  
(Ahh)

Didn't think that you'd ever get it  
Never felt ok so I said man fuck it  
Put my neck on the line kept my head in the clouds and I saw that the weather was still shit  
And now I'm up here fucked all alone  
Just how I wanted to be, I'm alone  
So I crawl to the bathroom, it's me in the mirror, I ask myself 'who the fuck is this?'  
Fuck!

You've failed yourself just one more time  
Dropped another pill and sailed to heaven  
I don't feel like I'll ever be alive again  
Just numb the pain and forget I'm not dead

When what happens at home stays at home  
Then you know there is no-one to see if your body is cold  
And your lips are as blue as your soul  
If your tongue is sunk in at the back of your throat  
If the spasms were fun, if there's bile on the rug  
If there's anything you could have done  
All these questions I've asked myself over and over  
Oh fuck this shit pass me the gun, I'm so done

I think it's time to kick this shit  
I think I need out of this mess  
But I know that I'll miss all the warmth  
And the itch and the break from the stress  
But one last time I roll the dice  
Gamble again with my fucking life  
I know that I've lost and I'll lose again  
Lose again and again and again

I'll fail myself just one more time  
So I crush another pill and sail to heaven  
I don't feel like I wanna feel alive again  
Just numb the pain and forget I'm not dead

I'll fail myself just one more time

So I crush another pill and sail to heaven  
I don't feel like I wanna feel alive again  
Just numb the pain and forget I'm not dead
