

## Sick Dog

ten56.

Peel the skin back and carve into my bones  
Sink the needle, watch my eyes sink back into my skull  
I don't wanna feel this  
I don't feel nothing at all (Nothing at all)  
I don't wanna be the one to flick the fucking switch

I dream of cutting off  
Dream of shutting down  
Pull the plug  
Praying for this nightmare to end

Laying in my coffin again  
Darkness come hither my friend  
Sail me away to the

Grant my wishes to die (Please)  
Blow the fuse off of this power supply

Sick to the stomach  
Take me away from this hurt  
Grant me this wish  
Send me straight me down under the the dirt

I just can't take it anymore  
I'm soulless  
Throw me down into the endless void  
I'll give you anything to put this carcass to rest

I don't wanna be  
I don't wanna feel  
I don't wanna swallow this poison no more (Poison no more)

Take me to the gates  
I am ready now  
I can hear them call for my name at the door (Come join us)

I wanna feel the coldness (Coldness)  
I wanna slow dance with the corpses (Corpses)  
This life is a sad one (Sad one)  
Let me go down where I belong

To the place where there is no pain  
Where the nurses do not know my name

Forget me not  
So tired of waiting  
Give me my turn to rot

Leave my body to the insects

Let me plunder  
Fill my veins  
Put this sick dog under
