

Belong

TENDER

And won't you stand in my
And won't you stand in my way?
Please stop me
Won't you stand in my
Won't you stand in my way?
Please stop me

No I don't belong, to anyone
But I wish I did
Then maybe I won't feel the shame
Then maybe I could cherish my name

Oh, I wish you'd stop me
Before I go and hurt myself again
Before I have to try to explain
Mmm, what have I done?

Take me under your wing
Show me shelter from evil things
Can't leave me alone
Don't leave me alone for long

No I don't belong, to anyone
But I wish I did
Then maybe I won't feel the shame
Then maybe I could cherish my name

Oh, I wish you'd stop me
Before I go and hurt myself again
Before I have to try to explain
Mmm, what have I done?

Take me under your wing
Show me shelter from evil things
Can't leave me alone
Don't leave me alone for long
