

Burden

TENDER

I won't be somebody else
But I know that you want me to
I don't need nobody's help
Never felt so close to you

Be my burden, be my burden
Be my burden, be my burden
When it's all dried up
And your love is spent
When I tried to stop before you went
My heart is broken, was that my token?
But love is certain, oh be my burden

And through the plumes of smoke
You let the water soak in
And I'll ask you what you've done
Collect the settled dust
My vision won't adjust when I was not the only one

Be my burden, be my burden
Be my burden, be my burden
When it's all dried up
And your love is spent
When I tried to stop before you went
My heart is broken, was that my token?
But love is certain, oh be my burden
