

come clean

TENDER

Try something, be real
There's nothing I feel
For you, for me
I need to come clean

Running at the first sign
Of trouble, baby this time
Don't let me be the coward
Please don't let me be the coward that gave up on you

I'm drowning in deep
I'm struggling to breathe
Still rising around me
I need you more than you need me

Running at the first sign
Of trouble, baby this time
Don't let me be the coward
Please don't let me be the coward that gave up on you

Try something, be real
There's nothing I feel
For you, for me
I need to come clean

For you, for me
I need to come clean
