TENDER

Fix me, you always go and do too much
Got me thinking
I will never be enough
Going crazy just trying to keep up
Am I lazy do I even wanna be loved
Do I even wanna be loved

Good to me
You were good to me
I always felt you care
You said you'd go nowhere
I can't find a reason
Baby to have my doubts
The fuck is it all about
Why do I feel this now

I can't find a reason
Baby to have my doubts
The fuck is it all about
Why do I feel this now

Take my love with you
We both got swept away
Washed up in different places
Keep my eyes closed
I offered you my worst
Can't see you when your hurting
Baby, you were good to me
