daydreamers

TENDER

'Cause we're daydreamers
I can't live without thinking about you
The smell of your skin
The shape of your bruises
The thought of your touch making me lose it

When you're not home
You're the only thing on my mind
Leaving notes around the house for me to find
Say you'll love me all the time
Say you'll love me all the time

Yeah we're daydreamers
I don't think about anything else
You'll be there when I ask for help
Baby you let me know you well
Sun barely set you hold me still
I know you and I let you know me too
I can tell when it's not going well

You don't have to love me every single day
Just love me when it matters and baby I'm ok

Stay home
So I don't have to miss you
If you have to go
Baby I'll go where you do
Don't wanna be without you
