

This is my design
Stay in the lines
This is my design
We're intertwined
This is my design
Satisfied, so divine
Divine interventions

Stop me, going around in circles
Going in, baby, no need to be careful
All my days merge into one
Whisper in my ear, "don't come undone now"

All the time
And everywhere I go
I just can't get enough of you
Driving me crazy
My heart rates won't save me the truth
But I love you through and through

Stop me, going around in circles
Going in, baby, no need to be careful
All my days merge into one
Whisper in my ear, "don't come undone now"

All the time
And everywhere I go
I just can't get enough of you
Driving me crazy
My heart rates won't save me the truth
But I love you through and through

All the time
And everywhere I go
I just can't get enough of you
Driving me crazy
My heart rates won't save me the truth
But I love you through and through

All the time
And everywhere I go
I just can't get enough of you
Driving me crazy
My heart rates won't save me the truth
But I love you through and through
