

Erode

TENDER

Tell me how it is
We're one step closer
We're moving slower
On the right tracks

Tell me how it is
We're moving forward
We've been so tortured
By all of this

Oh like an island, we're surrounded by a deep blue sea
You're the waves that push and pull against me
You wash me away, bit by bit
I will slowly erode 'til there's nothing left

If you want me like that, that's who I'll be
If you love me right back, I could be anything
It's like this and like that
I think I'm starting to crack
Then you'll leave and come back
The odds are starting to stack
Against me
Against me

You can sink alone
By deep
But you
But you pull on my soul
No, you won't let go
You let me know
I'm apart of everything you do

Oh like an island, we're surrounded by a deep blue sea
You're the waves that push and pull against me
You wash me away, bit by bit
I will slowly erode 'til there's nothing left

If you want me like that, that's who I'll be
If you love me right back, I could be anything
It's like this and like that
I think I'm starting to crack
Then you'll leave and come back
The odds are starting to stack
Against me
Against me
Yeah

If you want me like that, that's who I'll be
If you love me right back, I could be anything
It's like this and like that
I think I'm starting to crack
Then you'll leave and come back
The odds are starting to stack
Against me
Against me
