

# Legion

TENDER

Give me back my legions  
Or give me control  
Now I swim against the tide  
While my fear swallows me whole  
I don't need a reason  
I don't even know  
How I crumbled under pressure  
How I almost lost it all

Can't take it all from me  
No, can't take it all from me

I need your love but I'm scared to let it in

Give me back my people  
I want to be adored  
You can address me as your king  
While your money fills my halls  
I don't need a reason  
Make you part of the hoards  
They will give and I will take  
I will work them 'till they're sore

Can't take it all from me  
No, can't take it all from me

I need your love but I'm scared to let it in  
I need your love but I'm scared to let it in  
I need your love but I'm scared to let it in
