

Long Time Coming

TENDER

I know what you've done
And I don't even feel sorry
This hasn't felt like love
We don't speak anymore
Lack of warning, I miss your body
Drifting through the days, I need a calling
I need something to do
That doesn't involve you

Long time coming
I'm gonna leave ya
It's been a long time coming
I'm gonna leave ya

'Cause you know that it's all that we needed
To go in our separate ways
Step back and work from a distance
And maybe
We'll find each other again

Did we try too hard
To make this work?
Did we pay the price?
We both got hurt
It was no one's fault
We both lost time
I wasted yours
And you wasted mine

Long time coming
I'm gonna leave ya
It's been a long time coming
I'm gonna leave ya

'Cause you know that it's all that we needed
To go in our separate ways
Step back and work from a distance
And maybe
We'll find each other again
