

Own Up

TENDER

It's gonna take time, don't want to waste mine going in circles
Give me that false love, it wouldn't take much, give me a purpose
Give me anything so I can mean something to you
And there's nothing that I wouldn't do

Step up
'Cause I need you, honey
Own up
It's the reason I care so much
It doesn't matter how much you love me
Just that you do

Make up your mind
Heart on the line
At your mercy
By your design
Try to hurt me
One of a kind
Don't deserve me

It's gonna take time, don't want to waste mine going in circles
Give me that false love, it wouldn't take much, give me a purpose
Give me anything so I can mean something to you
