

## Dash Light

Tenille Arts

Boy I know you wanna pick me up  
And I kinda feel like falling in love, in love  
You got my heart and a Camaro  
And when we get down to the end of that road, oh

Don't stop pulling me in  
Sweet summer breeze and your warm skin  
I could get lost again and again in your eyes  
Don't care what the chances are  
Of falling too fast, or going too far  
We don't need the moon or stars tonight  
We got the dash light

Boy turn up your radio  
Put your lips on mine and kiss me slow, oh  
Whisper something like the truth  
You've been wanting me like I've been wanting you  
Whatever you do

Don't stop pulling me in  
Sweet summer breeze and your warm skin  
I could get lost again and again in your eyes  
Don't care what the chances are  
Of falling too fast, or going too far  
We don't need the moon or stars tonight  
We got the dash light

It's glowing just enough to see your smile  
And that's enough to drive me wild

Don't stop pulling me in  
Sweet summer breeze and your warm skin  
I could get lost again and again in your eyes  
Don't care what the chances are  
Of falling too fast, or going too far  
We don't need the moon or stars tonight  
We got the dash light

Don't stop pulling me in  
Sweet summer breeze and your warm skin  
I could get lost again and again in your eyes  
Don't care what the chances are  
Of falling too fast, or going too far  
We don't need the moon or stars tonight  
We got the dash light  
We got the dash light  
We got the dash light
