

Right Guy Wrong Time

Tenille Arts

You're just like me
Never met anyone quite like me
You're my kind of crazy
And you don't care who sees
Our conversations that first night
Led to the want you look in your eyes
But that girl back home never left your mind

Right guy, wrong time
Shooting stars in the night sky
Ships passing in the night
If life was perfect you'd be mine
Right guy, at the wrong time

You held my hand
Even though you understand
You're leaving tomorrow
And what we have has to end
The way we danced was innocent
But there's something 'bout it I can't forget
Yeah maybe we were meant for another life

Right guy, wrong time
Shooting stars in the night sky
Ships passing in the night
If life was perfect you'd be mine
Right guy, at the wrong time

If I said I'd wait for you
Tell me boy, what would you do?
To me it feels like we'd be changing fate
But what if that's my biggest mistake

Right guy, wrong time
Shooting stars in the night sky
Ships passing in the night
If life was perfect you'd be mine
Right guy, at the wrong time

Right guy, wrong time
