

Christmas Cards

Tenille Townes

Best friends forever
Don't ever change
Chiseled in purple ink
On a Bulldog yearbook page
We had more hairspray
Than we had bangs
But hairdos, love and friendship
Always find a way to age

Seasons come and seasons go
Summer sand turns into snow
Someone you loved along the way
Becomes someone you used to know
Now we're postmarked pretty paper
Our best cursive from the heart
It's kinda funny how forever turns into Christmas cards

One can of Krylon
Two shaky hands
Our favorite sonnet
Underneath the football stands
Third year of college
First year of love
So many firsts, I thought the first was all there was

Seasons come and seasons go
Summer sand turns into snow
Someone you loved along the way
Becomes someone you used to know
Now we're postmarked pretty paper
Our best cursive, from the heart
It's kinda funny how forever turns into
Christmas cards

Thank you for the picture, thank you for the past
And I hope you smile as easy in between the camera flash
So here's to another year, here's to our memory
I think of you sometimes, and I'm glad you think of me

Seasons come and seasons go
Summer sand turns into snow
Someone you loved along the way
Becomes someone you used to know
Now we're postmarked pretty paper
Our best cursive from the heart
It's kinda funny how forever turns into
Christmas cards, yeah
Christmas cards, ooooh
Oh, yeah
