

# Lighthouse

Tenille Townes

Dare me to move and I'll show you I can  
When your sail goes down, I'll be your second wind  
There on your sleeve, when your heart's wearing thin  
I'll be there sure as the tide rolls in  
Yeah, feeling the weight of the world spin around you  
Just let it spin

When you go the distance, I'll be the extra mile  
When you're at the almost, I'll be the finish line  
I'll be your lighthouse, lighthouse  
I'll be your lighthouse, lighthouse

You gotta be lost if you wanna be found  
Well, there's nothing wrong taking the long way around  
The sun it can fade but it never burns out  
Sometimes we all chase those paper towns  
Yeah, feeling the weight of the heart inside you  
It's who you are

When you go the distance, I'll be the extra mile  
When you're at the almost, I'll be the finish line  
I'll be your candle there in the attic dark  
The back porch glow from the moon and stars  
I'll be the firefly in a mason jar  
I'll be a light for you wherever you are

When you go the distance, I'll be the extra mile  
When you're at the almost, I'll be the finish line  
I'll be your lighthouse, lighthouse  
I'll be your lighthouse  
I'll be your lighthouse  
Weight of the heart inside you
