

Stay

Tenth Avenue North

I have run through field and mountain
I have waited for the dawn
Gave you heart and soul and body
For the promise of your love

I will not let the fear take over
I will not heed the siren's song
I have seen miracles breathe like thunder
So I will wait till the feeling comes

Oh my love, I will fight my heart to keep you safe here
All my life, I will stay
Stay

Oh my love, we are light, a mirror of love eternal
How could I walk away
Stay, stay, stay, stay

We can learn to choose each other
Face to face and hand in hand
Fire dies and tempest crashes
But we won't let the darkness in

I will not let the fear take over
I will not heed the siren's song
I have seen miracles breathe like thunder
So I will wait till the feeling comes

Oh my love, I will fight my heart to keep you safe here
All my life, I will stay
Stay

Oh my love, we are light, a mirror of love eternal
How could I walk away
Stay, stay, stay, stay

Oh lord, I will stay here

Oh love come take my life
Can we remember what was revealed in the sunlight
For rich or poor, I won't leave your side
We can walk safely together through the battle lines

Oh my love, I will fight my heart to keep you safe here
All my life, I will stay
Stay

Oh my love, we are light, a mirror of love eternal
How could I walk away
Stay, stay, stay, stay

Oh love come take my hand tonight
Can we remember what was revealed in the sunlight
