

## headlock

Tep No

I kinda hate it when it's cold out and there ain't any way to get warm

Too many holes in my pocket, and the change I need is all gone  
I got enough to handle without you giving me more to handle  
I just don't know how much more of it I can take

Let me just get through this  
Let me just get through this  
Let me just get through this  
Let me just get through this  
Let me just get through

I got my head in a headlock and I did it to myself  
It's getting heavier to hold up  
But I don't wanna let nobody help  
Cause I got enough to handle without you giving me more to handle  
I just don't know how much more of it I can take

Let me just get through this  
Let me just get through this first  
Let me just get through this  
Let me just get through this first

Oooo

Let me just get through this  
Let me just get through this first  
Let me just get through this  
Let me just get through this first  
Let me just get through this  
Let me just get through this first  
Let me just get  
Let me just get through this  
Let me just get  
Let me just get through this
