

Higher Than This

Tep No

Every time you call from a different place
How I want you more like love on her lips
And if you're all alone I'll be on my way
If you're feeling stoned

We'll go higher than this
Higher than this
If you feel all alone

We could celebrate on a different day
And in a different fate, softening bliss
And our hearts will glow when we dissipate
And if the heavens say no

We'll go higher than this
Higher than this
We'll go higher than this

I feel lonely in my city, get over here
Thinking 'bout how you're so pretty when you are near
It's like you always want us
It's like you're so full of hauntings

We're higher than this
We're higher than this
We're higher than this

Every time you call from a different place
How I want you more like love on her lips
And if you're all alone I'll be on my way
If you're feeling stoned

We'll go higher than this
We'll higher than this
Higher than this
Higher than this
We'll higher than this
