I'm Evil

Tep No

I've been doing that thing
I've been doing that thing to you
I've been doing that thing
And I know that you want it too
'Cause every time we could cross that bridge 'cause we know
We'll never wanna be home
We'll never wanna stay awake
We'll never wanna stay awake
We'll never wanna stay awake, no, no, no
We'll never wanna stay awake

So be careful what you mean love
You know I'm evil, I'm evil
I've been looking at my life
And don't want to pay the price
No, I don't want to ignite this fire

No, no
So be careful, be careful
You know I'm evil, I'm evil
Be careful, be careful
You know I'm evil, I'm evil
Be careful what you mean love
You know I'm evil, I'm evil

Every time you coming back I ran away-way-way
Left it off for you to blow up in your fa-fa-face
It's enough to feel a little sometimes
But not enough, not enough to care for you

So be careful what you mean love
You know I'm evil, I'm evil
I've been looking at my life
And don't want to pay the price
No, I don't want to ignite this fire

No, no
So be careful, be careful
You know I'm evil, I'm evil
Be careful what you mean love
You know I'm evil, I'm evil
I've been looking at my life
And don't want to pay the price
No, I don't want to ignite this fire, no
