

Like A Virgin

Tep No

I've been holding on love so much, nothing to wait
It's been a long time, the silence will wash away
When she holding me down, I never could complain
For a second my tongue, my tongue will come out and play

I've been taking my time, time, to forge out the pain
It's been a long time, the silence will wash away
When she holding me down, I never could complain
For a second my tongue, my tongue will come out and play, yeah

She's moving like she wanna show, show me the show
I'm feeling like a virgin though you already know
I'm feeling like she's nothing less than perfect for me, to hold
d
I'm feeling like a virgin
