

# Looking For (Turn Back Time)

Tep No

Turn back time now  
You can be yourself once more  
Read all signs now  
Is this what you're looking for

Another night, another chase  
The music moves through time and space  
Just turn around and look away  
And never stop these foolish games  
Another night, another chase  
The music moves through time and space  
Just turn around and look away  
Is this what you're looking for?

Is this what you're looking for?  
Is this what you're looking for?  
Is this what you're looking for?  
Turn back time now  
You can be yourself once more

Oh my, middle of the night  
Buy a castle light on you  
Outside, little to the right  
Just so I be next to you

Another night, another chase  
The music moves through time and space  
Just turn around and look away  
And never stop these foolish games  
Another night, another chase  
The music moves through time and space  
Just turn around and look away  
Is this what you're looking for?

Is this what you're looking for?  
Is this what you're looking for?  
Is this what you're looking for?  
Turn back time now  
You can be yourself once more
