

My Queen

Tep No

I'm feeling nothing, it's perfect
'Cause you feel so good to me
Everything's right 'cause you're worth it babe
Just the way, just the way, you should be

Just the way, just the way, you should be
Just the way, just the way, you should be
Just the way, just the way, you should be
Just the way, just the way, you should be
You should be

I caught you into my tight rope
Like a fish, drown in the sea
I'll hook you right till the morning babe
Swear I'll make, swear I'll make, you my queen

Swear I'll make, swear I'll make, you my queen
Swear I'll make, swear I'll make, you my queen
Swear I'll make, swear I'll make, you my queen
Swear I'll make, swear I'll make, you my queen
You my queen
