

## Never Been Hurt Before

**Tep No**

You would never hurt me, not on purpose  
You could never let me go  
I'll never be away for too long  
Cuz I need you close

I'll stand beside you like I've never been, never been hurt before  
I'll see the good you like I've never loved, never loved someone more  
It's a feeling I get when you're leaving and it only grows  
I'll stand beside you like I've never been, never been hurt before

Why wouldn't I be this honest?  
You know that now you can too  
She broke your heart like a promise  
But I'll never do that to you

I'll stand beside you like I've never been, never been hurt before  
I'll see the good you like I've never loved, never loved someone more  
It's a feeling I get when you're leaving and it only grows  
I'll stand beside you like I've never been, never been hurt before  
...
