

# Older

**Tep No**

I feel I'm getting older  
At least I'll keep falling  
18 years already golden  
Think growing up was closer

So tell me how it feels like  
This is just a riptide  
Don't want to be broken  
'Cause I still keep hoping

That my future is not as bad as it seems  
And I swear I will be patient they told me  
But I know that people always pretended  
So [?] just like a kid

Older, older  
I feel I'm getting older, older  
I feel I'm getting older, older  
Older, older

Feel I'm getting older, older  
I feel I'm getting older, older  
I feel I'm getting older, older  
Older, older

I feel I'm getting older  
At least I'll keep falling  
18 years already golden  
Think growing up was closer

So tell me how it feels like  
This is just a riptide  
Don't want to be broken  
'Cause I still keep hoping

That my future is not as bad as it seems  
And I swear I will be patient they told me  
But I know that people always pretended  
So [?] just like a kid

Older, older  
I feel I'm getting older, older  
I feel I'm getting older, older  
Older, older

I feel I'm getting older, older  
Older, older  
I feel I'm getting older, older  
Older, older

Older, older  
I feel I'm getting older, older  
I feel I'm getting older, older  
Older, older
