

Pacing

Tep No

I see the future...
I see the future when I wake up
And it's brighter as we're falling down
And I'm feeling like I'm pacing
We'll sleep forever in the sands that we bathed in

It's not fair when I'm falling down
I wanna feel with you
Where the wind blows from the tidal wave
We'll sleep forever in the sands that we bathed in

Cause every summer when I wake up
I wanna wake up with you
Alone together, we're pacing
And every summer when I wake up
I feel closer to you
This love, we can't replace it
Cause every summer when I wake up
I wanna wake up with you
Alone together, we're pacing
And every summer when I wake up
I feel closer to you
This love, we can't replace it

It's not fair when I'm falling down
I wanna feel with you
Where the wind blows from the tidal wave
We'll sleep forever in the sands that we bathed in
It's not fair when I'm falling down
I wanna feel with you
Where the wind blows from the tidal wave
We'll sleep forever in the sands that we bathed in

We'll sleep forever in the sands that we bathed in

Cause every summer when I wake up
I wanna wake up with you
Alone together, we're pacing
And every summer when I wake up
I feel closer to you
This love, we can't replace it
Cause every summer when I wake up
I wanna wake up with you
Alone together, we're pacing
And every summer when I wake up
I feel closer to you
This love, we can't replace it
