Tep No

Baby I'm on my way home
Trying to find me a home
Trying to find my place
Somewhere in outer space

You gotta think of me
Things are not what they seem
You gotta [?]
You've never been displaced

There are times I've been away
Every moment in my brain, hey, hey
All feelings I've been [?]
Could I have had another million songs
Oh

Oh
Baby I'm on my way home, oh
Trying to find me a home
Baby I'm on my way home
Baby I'm on my way home
