

# Please Me

**Tep No**

I love the way you're pulling up my hair  
And the way you take me over there  
I'm your slave, please take me anywhere  
Take me anywhere

I love the way you please me  
The way you please me  
I love the way you please me  
The way you please me  
I love the way you please me

The way you please me  
I love the way you please me  
The way you please me

I love the way you make that body sink  
Every time you take a cheap drink  
Let me sing to you and don't blink  
Baby don't blink  
Twice

The way you please me  
I love the way you please me  
The way you please me  
I love the way you please me

The way you please me  
I love the way you please me  
The way you please me

Please me
