

Safe Dream

Tep No

Are you lost?
Running circles around
Always trying to fight the feeling
Oh, but just falling down
Is it the end of faraway sounds
I've been howling, howling
Never reaching distant ground

But I won't give in, no
Oh, the future is now
No I won't give in, no
Time is waiting around

If this is the start of our safe dream
Then why am I feeling so empty?
And I know and I know I won't fall into the break of dawn
If this is the start of our safe dream
Why am I still here?
Why am I still living?

Did you give up when they shot you down?
Always trying to fight the feeling
Oh, but just falling, oh
Is it the end?
Or maybe the start? (may be the start)
Of something you never thought could happen in a million stars
(Stars, stars)

But I won't give in, no
Oh, the future is now
No I won't give in, no
Time is waiting around

If this is the start of our safe dream
Then why am I feeling so empty?
And I know and I know I won't fall into the break of dawn (daaa
wwwn)
If this is the start of our safe dream
Why am I still here?
Still living?
If this is the start of our safe dream
Then why am I feeling so empty?
