

Shakin'

Tep No

The city wants me to know
It's been hard for us both to watch you go
Think I'm hitting a wall
Maybe this time around, I'll let it show

The feeling's taking over
Wish I could taste it
Cause I don't want another
To come and waste it
My love did not recover
The way yours made it
Never got the closure
Maybe we can save it

Do you
Miss my little teeth marks on your skin
Said you
Always thought it'd feel just like a sin
To let us go

Cause every time you get close to me
Takes me right back, what we used to be
I'm shaking
My hands, they're shaking
Cause everywhere I'm afraid to see
You all around, so wild and free
I'm breaking
This heart you've taken

Cause every time you get close to me
Takes me right back, what we used to be
I'm shaking
My hands, they're shaking
Cause everywhere I'm afraid to see
You all around, so wild and free
I'm breaking
This heart you've taken

I lost count of the days
Every daydream will put me in a haze
Love the sound of your name
Feel the rush through my bones, can't stop your flame

Do you
Miss my little teeth marks on your skin
Said you
Always thought it'd feel just like a sin
To let us go

Cause every time you get close to me
Takes me right back, what we used to be
I'm shaking
My hands, they're shaking
Cause everywhere I'm afraid to see
You all around, so wild and free
I'm breaking
This heart you've taken

Cause every time you get close to me
Takes me right back, what we used to be
I'm shaking
My hands, they're shaking
Cause everywhere I'm afraid to see
You all around, so wild and free
I'm breaking
This heart you've taken

Cause every time you get close to me
Takes me right back, what we used to be
I'm shaking
My hands, they're shaking
Cause everywhere I'm afraid to see
You all around, so wild and free
I'm breaking
This heart you've taken
