

She Called Me

Tep No

See I've been feeling all our pain
She called me right away
It's slow, no
And I'll be on my way
From my place to your place
Can't stop, don't give hope

Feeling gone away

And I'll be on my way
From my place to your place
Feeling all our pain
I'm feeling all our pain

See I've been feeling all our pain
She called me right away
She called me right away
And I'll be on my way
From my place to your place
And I'll be on my way, oh
Give me hope, oh
Give me hope

See I've been feeling all our pain

No
Come on
Come on you
Feel the stars
You go on
Feel the stars

See I've been feeling all our pain
She called me right away
Feeling all our pain
It's slow
And I'll be okay
From my place to your place
I'll be okay
From my place to your place
From my place to your place, oh
From my place to your place
