

Summer Feeling

Tep No

We'll dive into oceans blue
Where sunlight reflects on the water
If these moments are far and few
Then I'll stay here with you

You give me summer feeling
We've been sunset dreaming
Of golden skies and crashing waves
Warmer water brighter days
You give me summer feeling

We'll chase the summer feeling
We could dive into the deep end
Could think of a million reasons
To stay here tonight

We're chasing another tide
The fire lights the way we'll follow
We'll let sunsets live in our eyes
So let's stay here tonight

You give me summer feeling
We've been sunset dreaming
Of golden skies and crashing waves
Warmer water brighter days
You give me summer feeling

We'll chase the summer feeling
We could dive into the deep end
Could think of a million reasons
To stay here tonight

We'll chase a summer feeling
We could dive into the deep end
Could think of a million reasons
To stay here tonight

You give me summer feeling
We've been sunset dreaming
Of golden skies and crashing waves
Warmer water brighter days
You give me summer feeling

We'll chase the summer feeling
We could dive into the deep end
Could think of a million reasons
To stay here tonight
You give me summer feeling
We've been sunset dreaming
Of golden skies and crashing waves
Warmer water brighter days
You give me summer feeling
