

Transcendence

Tep No

We've found our world

I'll stay here forever

We've found it all
So glad we left behind
The fears we knew
Are never coming back
Are never coming back
Are never coming back

And it feels so cool
Do you hear, do you
And it feels so right
Do you love, tonight
Do you love, tonight

Ooh
Ooh
Ooh, ooh

We've found our world
Inside of our hearts
We've found it all
We're never coming back
We've found our world
So glad we left behind
The fears we knew
They're never coming back
