

Under Rage

Tep No

My love, I wanna be with you, only in this time
We'll spark like comets up in the air
Never mind if the weather so is bright out there

We can swim, you're my first
I can fill up you up 'til it hurts
Let me swim, with your words
They go half pitch under your skirt

We ran like one and go on all the way
You have my heart
Won't you forget, this soaking rain
You held my arm

And love, let's settle down with the lies of mine
You're so naive, it's like paradise
Let's leave the love and just settle mine
Let's leave the love and just settle mine
Mine, mine

We can swim, you're my first
I can fill up you up 'til it hurts
Let me swim with your words
They go half pitch under your skirt

We ran like one and go on all the way
You have my heart
Won't you forget, this soaking rain
You held my arm

So don't run away
You make me feel so under rage

We ran like one and go on all the way
You have my heart
Won't you forget, this soaking rain
You held my arm
So don't run away
You make me feel so under rage
