

# You Know That Feel Off Of Me

Top No

I feel you, so close, need you  
Close your eyes, it's you and I  
Another time, doesn't matter, we don't care about the others  
We stay dancing all night 'cause I know you're my lover

Ooh, baby I love it  
And I can't ignore it  
I like that you can notice  
My body gets carried away  
I'm the one that needs help, eh

You know that feel off of me  
Alright, alright  
And I don't wanna leave  
It's alright sometimes  
Baby, what should we do?  
That's right, that's right  
And we have feelings high  
So high, so high, so high

feel off of me  
Alright, alright  
And I don't wanna leave  
It's alright sometimes  
Baby, what should we do?  
That's right, that's right  
And we have feelings high
