

## ...and I Need To Be With Someone Tonight

Terence Trent D'Arby

Shine on your light  
Lead me to your home

Lower your sights  
Put away your comb

Though black babies are starving  
And cows fed for the carving

All I know is I'm lonely  
And I need to be with someone tonight

Lift up your chin  
Let me see your eyes

Words are not my yen  
My tongue is often tied

Though apartheid's a greater issue  
I long to hear "I miss you"

All I know is I'm lonely  
And I need to be with someone tonight

'Till men stop being intimidated  
By women who have made it

All I know is I'm lonely  
And I need to be with someone tonight
