

## Colour My Dreams

Tereza Kerndlová

Colour my dreams baby  
Golden sunshine  
fills me up whenever I'm with you  
Colour my dreams baby  
Paint your rainbow  
Pass your shifts off  
When I'm feeling blue

Colour my dreams baby  
Chase the darkness  
Edge your light of love  
and make it shine  
Colour my dreams baby  
Special moments  
Captured images that you designed  
And it's case of genuine impressions  
I remember It's helped me survive  
It's a case of my imagination  
Dry emotions, colour my life

Colour my dreams baby  
Glow and patience  
Take me over when the lights go down  
Colour my dreams baby  
Show me feelings  
Hold me when there's no one else around  
And it's a case of loving so madly  
I can taste your body close to mine  
It's a case of needing you so badly  
That I want you to colour my life

Love is more than touching your body  
Love is more than holding you tight  
And when you gonna think of you darling  
Like a silver star that shines through the night  
Colour my dreams  
Colour my dreams baby, baby  
Colour my dreams  
Colour my dreams  
Colour my dreams baby
