

Bitch Like You

Terminal Choice

I'm living with you but I'm living a life
I wanna go down and you wanna go high
It's not what I want cos I wanna be free
You live in your cage but that's no place for me

I'm on the way
Now I'm on the way
Now I'm on the way to show what I really need

I feel just too young
to waste the rest of my life
with a bitch like you
You better shut your mouth
I don't wanna see you again
It's written all over my face

I really hate you
I really hate you
I really do
Cos there's nothing you can give me
that makes me feel like loving you
