

## Fight The System

### Terminal Choice

There's nothing in this world that I'm afraid of anymore  
I'm growing stronger and I don't hide from you anymore  
You can't impress me with your so called social attitude  
You cannot solve the problem so no one can trust in you

This is the time I rise again  
And I feel stronger than before  
I will fight against the law  
I break the rules just give me more

I cannot stand false prophecies  
Your whole system is a lie  
I want to go down in history  
And I will fight until I die

Are you telling me that one guy came in here and killed eight men with eight extremely well aimed shots in just a few seconds.  
Fuck  
You guys could do this every god damned day
