

## Someone

### Terminal Choice

you go to bed like every night  
but there is fear inside your mind  
you are afraid to close your eyes  
inside your body your small heart cries  
he says girl my love is true  
don't tell your mom things we do  
but you can't stand it anymore  
it is to late he opens the door  
he's coming for you

Someone - comes to you at night  
Someone - watches you while you sleep  
Someone - says baby, please don't cry  
Someone - wants to fuck you like a whore  
Someone - he's your nightmare

you see a shadow on the wall  
he kicks away your little doll  
your hear his soft and friendly voice  
he says, baby don't make a noise  
but tonight you change your life  
in your hand you feel the knife  
you feel the knife
